- **How do you feel about the progress you have made this semester?**
  I feel great! Now I'm pretty comfortable to work in the Android environment.
- **What progress have you made toward your learning goals at the beginning of the semester? Are those still your learning goals? If not, how have they changed?**

  My learning goal was to learning about mobile development and I think it's fair to say that I've made great progress. Now I changed my learning goal to make polished UI for Android app.
- **What is one or more things you are proud of so far this semester?**

  Made it through all the homeworks and labs for the class.
- **What is one or more things you wish you could have done better through the first half of Mobile Proto?**

  Being more mindful about coding habits and documentation.
- **What is one or more things the teaching team could have done better through the first half of Mobile Proto?**

  More side topics/ lectures for interesting/ useful topics in Android development.
- **What is one or more things you hope the teaching team will start doing or continue doing during the final project period?**

  Teaching how to make pretty UI.
- **What were your expectations for Mobile Proto and how has Mobile Proto aligned or differed from those expectations?**
  My expectation was a class that will teach me enough Android knowledge that I'll be comfortable making apps I want. So far it met my expectation and I learned a ton from the class.
